SIGMA PSI 1.0
SCIENTIFIC. INNOVATIVE. GUIDED. MACHATRONIC. ACTIVITIES

SALAM'S RUNOFF

“Everything is energy and that’s all there is to it. Match the frequency of the reality you want, and you cannot help but get that reality. It can be no other way. This is not philosophy. This is physics.”

~Albert Einstein

This year at SIGMA PSI 1.0, one’s aptitude for the subject and mettle to solve problems will undergo rigorous testing. So, let’s gear up and together debunk age old myths and stereotypes attached with physics being a tedious subject.

A category that will consist of 20 Multiple Choice Questions, to be solved in 30 minutes. This will test the ability of the participants to solve tricky problems under pressure. This will be the most competitive round of all the categories; the top four teams will qualify. The contestants will be required to submit detailed workings of their answers and teams with the same scores may be distinguished on the explanatory power of their workings. Contestants’ from each team will need to submit their work to one of the category heads.

Note: Any submissions received after the cutoff time will not be considered.
